

Grime Shark

- ▶ Simple install
- ▶ Simple to Use
- ▶ Great foam
- ▶ No more buckets or drums to change out
- ▶ No more waste of soap or chemicals and water
- ▶ Factory adjusted for great foam right out of the box
- ▶ All the functions you would expect from a premium system
- ▶ Great for detail shops
- ▶ Max run timer

The Grime Shark is a high quality foam brush system that is always hungry for bugs, tar, mud and road film – especially in those hard to clean areas where pre wash prep is needed. HighPoint's Innovative design requires only city water from a garden hose and a 120 VAC outlet to generate consistent, hard working foam. Simply push the start button to get instant foam. Adjustable timer for automatic stop or use the stop button. Premium brush for efficient removal of bugs, tar, grime, mud, and any type of road film. The Grime Shark is also effective for removing brake dust and other materials for tire and wheel pre-wash prep. Always uses fresh water and soap to reduce smearing.

The Grime Shark comes with a 5 gallon pail of Grime Shark Soap developed specially for HighPoint Car Wash Equipment to provide maximum foam detergent cleaning action. Available from your HighPoint Distributor. The Grime Shark is factory adjusted to provide hardworking foam right out of the box. The unit has adjustments to allow use of other foaming soaps.
